1. INTRODUCTION

1. The National Board of Examinations (NBE) was established in 1975 by the Government of India with the prime objective of improving the quality of the Medical Education by establishing high and uniform standards of postgraduate examinations in modern medicine on an all India basis.
2. NBE conducts postgraduate and postdoctoral examinations in approved disciplines leading to the award of Diplomate of National Board. The Medical Council of India has laid down standards for postgraduate examinations conducted by various medical colleges and affiliated to concerned universities, yet the levels of proficiency and standards of evaluation vary considerably in these institutions, leading to lack of uniform and acceptable benchmarks for assessment and qualification.
3. The setting up of a National Body to conduct postgraduate medical examination and training has provided common standards and mechanism of evaluation of minimum level of desired knowledge and competencies and fulfillment of the objectives for which postgraduate courses has been started in medical institutions. Moreover, intra country and international comparison is facilitated with the availability of commonly accepted evaluation mechanism like the DNB. The Diplomate National Board final examinations are conducted on all India basis on standardized format and multiple assessment tools are used for assessing the candidate.

4. POST-DOCTORAL FELLOWSHIP PROGRAM IN SUB-SPECIALITIES

5. Well equipped centers have been identified and accredited by NBE in the concerned specialties. Candidates with DNB/MD/MS/MCh qualification in the concerned specialty are eligible for fellowship programme. Selection to the fellowship programme is based on an entrance test and admission to the courses will be through centralised merit based counseling. The trainee will go through a structured training programme, maintain a performance record book and undergo an examination at the end of the training. Candidates will be awarded Fellow of National Board of Examinations at the annual convocation of NBE.

Note : Use of Mobile Phones/Electronic Devices is strictly prohibited in the premises of NBE Examination Centres.
Candidates shall be liable for penal action for Possession/Use of Mobile Phones/Electronic Devices

OBJECTIVES :

NBE offers 2 years Post doctoral fellowship courses with following objectives:

1. To facilitate and encourage post-graduates aspiring to learn skills and competencies in their area of interest.
2. To provide highest quality of specialty services comparable to any country in the world.
3. To recognize “Centre(s) of Excellence” and to identify experts in various sub-specialties and allied sciences.
4. To create a forum for high level scientific interaction between expert groups.
5. To facilitate and encourage our young post-graduates aspiring to provide for higher level of specialized services in own country.
6. To prevent brain drain of qualified medical professionals leaving our country for further academic achievements.
7. To improve and promote the existing medical institutions in India to perform high professional services in various fields.
8. To promote medical research and Innovations adaptable to the socio-economic status and culture of our country.
9. To conduct evaluation by appropriate mechanism for assessment of training programme examination before certification as specialist by the National Board of Examinations.

RECOGNITION OF FNB QUALIFICATIONS

The Nomenclature of the FNB qualification awarded by the National Board of Examinations is “Fellow of National Board”. The list of recognized qualifications awarded by the NBE in various fellowship programme as approved by the Government of India and included in the First Schedule of IMC Act 1956 is as at **Annexure-I**.
