CONFERENCE THEME

EMERGENCIES in OBSTETRIC MEDICINE:
EARLY RECOGNITION and INTERVENTION

Dear Colleagues,

The Obstetric Medicine Update - 2010, to be held on the 8th and 9th of October, 2010, will be the second scientific meeting of its kind. The theme we have chosen for this update is 'Emergencies in Obstetric Medicine: Early Recognition and Intervention'.

Medical emergencies in pregnancy are major contributors to maternal morbidity and mortality throughout the world. They pose a great challenge to all clinicians involved in this field. This Conference will provide an opportunity to obtain evidence based updates on common medical emergencies in obstetric practice from the pioneer of obstetric medicine, Dr. Catherine Nelson Piercy, herself.

Obstetric Medicine Update - 2010 will enable practitioners to interact with faculty from across the nation and abroad. It will impart practical knowledge to help improve maternal and fetal outcomes and ensure patient safety in high risk obstetrics.

We hope this conference will further the cause of the Society for Obstetric Medicine, India (SOMI) and that many practitioners will join as members.

Fernandez Hospital welcomes Obstetricians, Physicians, Anaesthetists, Emergency medicine experts, and Critical Care Experts to its 12th Annual CME.

Please email us if you wish to be on our mailing list and are interested in further information on the conference.

Come - learn - participate!

Dr. Evita Fernandez, FRCOG

Obstetric Medicine Team

Dr. Tarakeswari S.

Consultant - High Risk Obstetrics

Dr. Sunil T. Pandya

Consultant - Anaesthesia & Critical Care

Dr. Hemamalini V.

Consultant - Obstetric Physician

CONFERENCE PROGRAMME

HIGHLIGHTS

Cardiovascular Emergencies - What the Obstetrician should know

- Pulmonary edema
- Life threatening cardiac arrhythmias
