## Message

This is a proud and momentous day for all our graduating Diplomates and Fellows, who have successfully completed their rigorous training and are now ready to step into the noble profession of healthcare with confidence and competence. Your achievement is a reflection of your dedication, discipline, and unwavering commitment to excellence.

NBEMS has consistently strived to uphold the highest standards in postgraduate medical education and training. Over the years, it has expanded its reach across the country, contributing significantly to the development of a skilled and capable healthcare workforce. The Diploma, DNB, DrNB, and FNB qualifications awarded today stand as symbols of quality, credibility, and merit.

As you embark on this new journey, I urge you to carry forward the values of professionalism, ethics, and compassion. Medicine is not just about treatment, but about care, empathy, and service to humanity.

In an era of rapid technological advancement, it is equally important to embrace innovation while keeping the patient at the center of all that you do. I urge all of you to keep yourself abreast with the use of Artificial Intelligence in healthcare delivery.

You are the torchbearers of a stronger, more resilient healthcare system. Your role will be vital in addressing the evolving healthcare needs of our nation and ensuring equitable access to quality care.

I extend my heartfelt congratulations to all the post graduates, recipients of gold medals and their families on this remarkable achievement. I also express my sincere appreciation to the faculty, accredited institutions, and all stakeholders whose continued efforts make this mission possible.

I wish you all success, fulfilment, and excellence in your professional journey. May you achieve great milestones in your career, find deep satisfaction in serving patients, and continue to grow both professionally and personally.

*Abhijat C Sheth*
