MESSAGE

It gives me immense pleasure to extend my warm greetings on the occasion of the 23rd Convocation of the National Board of Examinations in Medical Sciences (NBEMS).

NBEMS has played a pivotal role in strengthening postgraduate medical education in the country by maintaining high standards of assessment. NBEMS network of accredited hospitals has been paramount in providing quality training to the trainee doctors besides making available affordable secondary and tertiary healthcare facilities to the citizens of the country even in remote areas. Its contribution towards building a competent and skilled healthcare workforce is both significant and commendable.

Convocation is a moment of pride and accomplishment for the graduating doctors who are now ready to embark on their professional journey. As you step into this noble profession, you carry not only knowledge and skills but also the responsibility of upholding the highest standards of ethics, compassion, and service to humanity.

The Ministry of Health & Family Welfare remains committed to supporting institutions like NBEMS in their mission to enhance medical education and healthcare delivery in India. The continued collaboration between the Ministry and NBEMS has been instrumental in addressing the evolving healthcare needs of our nation.

I congratulate all the successful candidates and wish them a bright and fulfilling career ahead. I am confident that they will contribute meaningfully towards strengthening the healthcare system and improving the well-being of our citizens.

My best wishes for the continued success of NBEMS.
