## CLINICAL IMMUNOLOGY AND RHEUMATOLOGY PAPER-III

Time: 3 hours RHM/D/20/43/III

Max. Marks:100

## **Important Instructions:**

- You are provided with 5 answer sheet booklets. Each individual answer sheet booklet consists
  of 10 pages excluding the covering jackets.
- Answers to all the questions must be attempted within these 5 answer sheet booklets which must be later tagged together at the end of the exam.
- No additional supplementary answer sheet booklet will be provided.
- Attempt all questions in order.
- Each question carries 10 marks.
- Read the question carefully and answer to the point neatly and legibly.
- Do not leave any blank pages between two answers.
- Indicate the question number correctly for the answer in the margin space.
- Answer all the parts of a single question together.
- Start the answer to a question on a fresh page or leave adequate space between two answers.
- Draw table/diagrams/flowcharts wherever appropriate.

## Write short notes on:

1.	Pathophysiology and management of Scleroderma Renal Crisis (SRC).	5+5
2.	Discuss about disease activity indices and damage indices in SLE and their clinical implication.	7+3
3.	Discuss about acute phase reactants. Compare between ESR and CRP utility and their utility in rheumatic disease.	6+4
4.	Autoantibodies and their significance in inflammatory myositis. Discuss about IVIG in myositis.	8+2
5.	Discuss about epidemiology of primary vasculitis syndrome. Write brief note on immune complex mediated vasculitis.	6+4
6.	Disease activity, damage and functional capacity measures in JIA.	4+3+3
7.	Discuss various reasons for anemia in rheumatic diseases. How do you differentiate between iron deficiency anemia and anemia of chronic disease?	5+5
8.	Discuss role of Nail Fold Capillaroscopy (NFC) in Rheumatology. Draw a diagram to show different parameters assessed in NFC.	6+4
9.	What are the principle of Ultrasonography and power Doppler? What structures can be assessed by US in Rheumatology? Discuss newer imaging modalities in spA.	3+4+3
10.	What are the various rheumatological manifestations seen in leprosy?	5+(2+3)

\*\*\*\*\*

Discuss differential diagnosis and management.
