

NATIONAL BOARD OF EXAMINATIONS

PUBLIC NOTICE

Dated: 27-11-2019

Subject: **Conversion of FNB Qualification to DNB in Fellowship Courses which have been transited to DNB courses**

1. The following FNB programmes have been transited to three-years Post Doctoral DNB programme:
 - Cardiac Anaesthesia
 - Paediatric Cardiology
 - Critical Care Medicine
 - Paediatric Intensive Care
2. FNB qualification holders in above specialties have been writing to NBE for an opportunity to convert their FNB qualification to DNB qualification in the respective specialty. The following scheme has been approved by NBE to allow the conversion of FNB qualification to DNB qualification in the same specialty.
 - Entry Examination: The applicant will have to qualify NEET-SS and a common specialty specific merit list shall be generated along with other candidates who had applied for NEET-SS in the same specialty. The allotment of seats shall be done through merit –based counselling.
 - Training: Desirous candidate will have to undergo two-years Post FNB training programme in the same specialty in a centre accredited by NBE. For e.g. an applicant with FNB Cardiac Anaesthesia qualification will be required to undergo two-years training in a hospital accredited by NBE for DNB Cardiac Anaesthesia.
 - Exit Examination: The applicant will have to qualify the DNB Final Exit Examination in the concerned DNB Super Specialty. Successful candidates shall be conferred as DNB qualification in the concerned specialty.
